

Air Pollution Control Systems

by Kris Adis Associates, Inc.

Serving the Industry since 1989

POLLUTION CONTROL SYSTEMS

- Custom Designed
- Manufactured
- Installed

CAPABILITIES

Over thirty five years of successful experience in product design, project management and fabrication of air pollution control systems.

State of the Art “Pulse-Jet” dust collection systems.

Kinetic-AIR™ bag filters and cartridge collectors provide quality and come with excellent service at competitive prices.

Applications

- Process Collectors
- Nuisance Filters
- Pressure Receivers
- Vacuum Filters
- Silo & Bin Filters
- Bag Dump Stations

Construction

- Carbon & Corten Steel
- Stainless Steel
- Non-ferrous Metals
- Thermal Insulation
- Custom Design Filters

Accessories

- Support & Access Steel
- Fans & Blowers
- Dust Handling Equipment
- Instrumentation & Controls
- Hoods, Stacks & Ductwork

Other Services

- System Design
- Project Management
- Field Erection
& Supervision
- System Debugging
- System Start-Up
- Training Seminars

Retrofit Work

Kinetic-AIR™ upgrades older baghouses to state of the art “Pulse-Jet” dust collectors.

The conversion to “Pulse-Jet” also increases the collector’s air handling capacity by more than 50%. The conversion also improves emission control efficiency and reduces maintenance costs.

We Build, Transport & Install

- Modular Dust Collectors
- Panel Constructed
- Field Welded Units

We serve the following Industries & many others

- Cement
- Chemical
- Construction
- Food
- Foundry
- Industrial Boiler
- Lime & Gypsum
- Plastics & Rubber
- Transportation
- Utility (coal handling)

Cartridge Dust Collectors
